

# KF Valves

## KF Series WB

### Welded Body Ball Valve

#### Features

- > Welded body design
- > Double piston effect seat design
- > Double block and bleed
- > Direct mount ISO topworks pad
- > Trunnion supported design reduces operating torque

KF WELDED BODY VALVES ARE NOW AVAILABLE IN 4-48 INCH DIAMETER.

#### SOLUTIONS IN EVERY SIZE.

With valves available in diameters from 4 to 48 inches, the legendary reliability of KF Valves now can be installed in more applications.

#### Pipe Outside Diameter (O.D.)

Pipe Size (in.)	Outside Dia. (in., mm)	
	in.	mm
4	4.500	114.3
6	6.626	168.3
8	8.625	219.08
10	10.75	273.05
12	12.75	323.85
14	14.00	355.60
16	16.00	406.40
18	18.00	457.20
20	20.00	508.00
24	24.00	609.60
26	26.00	660.40
30	30.00	762.00
36	36.00	914.40
40	40.00	1016.00
42	42.00	1066.80
48	48.00	1219.20

#### A DESIGN THAT SETS US APART.

KF Valves are available with Double Piston Effect (DPE) down to 4 inches. While other valve manufacturers stop at 8 inches.

#### DECADES OF PERFORMANCE.

While other brands may last a couple of years, the superior engineering and design in our valves allow them to perform for 30 years or more.

#### BUILT TO LAST. BUILT TO FIT.

KF Valves can be adjusted to meet any of your design requirements.

#### LESS WELDS MEANS MORE STRENGTH.

Less welds minimizes the number of potential leak paths, providing a safer solution in buried service and other critical applications.

#### AN INDUSTRY FAVORITE.

Oil & Gas companies all over the world are discovering the reliable longevity of KF Valves in gas utility and gas transmission applications.
